LA "COOPERATION" A LA XXVIIe RENCONTRE ASSYRIOLOGIQUE (suite)/ DE "COOPERATION" OP DE XXVIIste INTERNATIONALE ASSYRIOLOGISCHE ONTMOETING (vervolg).

G. GRAGG (Chicago)

CAD : Volume N has appeared. Proofs are expected for Q (which has been in press since Feb., 1979 - delay caused by technical problems involved in changing to composition machine. Vol. S will go to press by the end of 1980, while P and R are about to be edited. Vol. Š is now being prepared.

MSL : Volume XVI (Nabnitu) in press. Prepared by Irving L. Finkel.
Volume XV (Diri), ready but uncertain yet whether it will be published immediately after vol. XVI or after vol. XVII ; (edited by Civil).
Volume XXVII (Erimhus and Antagal, the first prepared by Antoine Cavigneaux, the second by Martha Roth) ; only final collations of Antagal needed.
Volume XVIII (Miscellaneous Vocabularies), well advanced (Martha Roth).
Volume XVIII will be the final one ; with good cooperation from the printers and enough funds, the complete series could be in your hands in about three years.
We are studying the means to keep MSL up to date and to publish the lexical texts that keep appearing. A first attempt will appear in a few months as MSL : SUPPLEMENTARY SERIES I. A fascicle of ca. 80 pp. with several recensions of the SAG-tablet, an important group of new commentaries to the series Aa = naqu, and miscellaneaous grammatical and lexical texts. Any suggestions are welcome on how to keep MSL up to date and make available revisions and unpublished material in a way that is practical and compact, and economical ! I will be very pleased to hear from you on this matter or you can write to M. Civil.

M. KALAÇ (Istalbul)

Professeur Bahadir Alkim führt seine Ausgrabung in Ikiztepe fort. Ein forläufiger Bericht über dieser Grabung wird im Kürze TTKY vorgelegt werden.
Prof. Mustafa Kalaç beteiligt sich an den Forschungen im Rahmen Unteren Euphrat-Projekts und arbeitet weiter hin an hieroglyphen Hethitischen-Probleme.
Prof. Dr. Muhibbe Darga gräbt bereits im zweiten Jahr am Şemsiyetepe im Gebiet des Unteren-Euphrats.
Prof. Refik Duru : Ein Vorbericht über seine Grabung am Kuruçay in der Nähe von Burdur soll in JfKF erscheinen.
Doz. Ali Dinçol hat eine umfangreiche Arbeit zum hethitischen Isuwa-Fest fertiggestellt. Als Publikationsort ist ebenfalls das JfKF vorgesehen.
Doz. Önder Bilgi hat im Rahmen des Unteren Euphrat-Projekts eine viel versprechende Ausgrabung in Köşkerbaba begonnen.
