PAS VERSCHENEN / VIENT DE PARAITRE

New series

LURISTAN EXCAVATION DOCUMENTS

Between 1965 and 1979 the Belgian Archaeological Mission in Iran excavated several graveyards in Luristan, Iran. The expeditions on behalf of the Ghent University and the Royal Museums of Art and History, Brussels, under the direction of the late Prof. Dr. Louis Vanden Berghe discovered major sites from the Chalcolithic, the Bronze and Iron Age. The present series provides full documentation of the discoveries. The first volume discusses the Chalcolithic graveyards of Hakalan and Dum Gar Parchinah. The 2ndcvolume which will deal with the Iron Age III graveyard of Chamahzi Mumah, is in print and will appear in 1997.
